

Project Initialization and Planning Phase

Date	July 2024
Team ID	739656
Project Name	Zombie detection using the machine learnig
Maximum Marks	3 Marks

Define Problem Statements(zombie detection Statement Template):

Create a problem statement to understand your users point of view. The zombie detection Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated prediction problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your prediction, which helps you better understand how they predict the human or zombie

I am	Describe customer with 3-5 key characteristics - who are they?	Describe the customer and their attributes here
I'm trying to	List their outcome or "job" the user does - what are they trying to achieve?	List the thing they are trying to achieve here
but	Describe what problems or barriers stand in the way - what do they have trouble with?	Describe the problems or barriers that get in the way here
because	Enter the "root cause" of why the problems or barriers exist - what needs to be solved?	Describe the reason the problems or barriers exist
which makes me feel	Describe the emotions from the customer's point of view - how does it impact them emotionally?	Describe the emotions the result from experiencing the problems or barriers
